

# Sustainability Committee

The Sustainability Committee's primary aim is to help our kids learn more about the environment and sustainability by creating fun activities for them to be involved in. We're also keen to improve the environmental performance of the school where possible.

The Sustainability Committee would love to hear from parents who are willing to contribute some of their time to get initiatives started. We're a small group at the moment and would love some more volunteers - many hands make light work!

Please contact [secretary@artarmonpandc.org.au](mailto:secretary@artarmonpandc.org.au) and they will put you in touch with the committee.

## Key goals and aspirations

- Promotion and involvement in significant National and International Environmental Days and Weeks throughout the year, including support to teachers in promoting sustainability as part of their class projects (e.g. World Environment Day, National Tree Day, National Recycling Week, etc).
- To continue to reduce waste generated at school to as low as practically possible in government sponsored Waste Wise School Programs and associated activities (paper recycling, zero waste Wednesdays, paperless newsletter).
- To encourage and educate the school community in sustainability approaches to school and community life. E News section of the newsletter with E Tips and other information.
- To support pupils in taking responsibility for a sustainable world - e.g. through development of pupil led "green team" or equivalent.
- To assess energy and resource efficiency of school building and equipment and improve efficiency where practically possible (e.g. water tanks, energy use etc) Smart-meter monitoring of the schools electricity usage.
